

POWERMITE

Innovative Power, Endless Possibilities

a member of the **Hudaco** group

Our Capabilities

At Powermite we appreciate that the ultimate success of projects are influenced by your preference of partners that respectfully understand the challenging scale of your application.

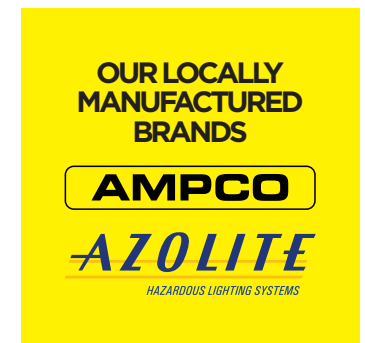

Our strength lies in working closely with our partners and transferring our solutions expertise with leading experience of our product range. Furthermore, you can rely on our high quality products sourced from internationally recognised manufacturers and our continued support throughout the life of the product. Powermite has since inception enjoyed customer recognition, based on our proficiency in design and supply of a multitude of electrical power transfer projects.

We currently employ 121 staff members across all our divisions and our operations are all Certified in Compliance to ISO Standards.

Our Values

With over five decades industry experience Powermite remains the partner of choice for leading flexible cable and power transfer projects throughout Sub Sahara Africa.

Our staff are suitably competent as specialists in Texoprene flexible cables and reeling assemblies, industrial plugs & sockets, crane festoon & downshop track systems and associated control solutions.

Your trusted partner of choice

Our History

1967

Established

2004

Member of Hudaco Group

Powermite was established in 1967 and has proudly participated in the industrial electrical space and manufactured electrical commodities for over five decades.

Our AMPCO brand started manufacturing our range of metal and plastic industrial plugs and sockets in 1974. In October 2019 AMPCO launched the new AMPCO Generation 2 Industrial Plugs & Socket range conforming to IEC60309-2. In 2004, Powermite was acquired by HUDACO Group in 1984 and became a division of a highly respected JSE listed company.

Our Social Responsibility

Powermite is a trading division within the Hudaco Group. As such Hudaco has a defined approach to fit both the beneficiaries and businesses. Whereas ESD forms part of the broad based black economic empowerment policy to advance economic transformation in SA. We procure from these suppliers to help them improve service delivery.

Each year the Hudaco board sets aside a specific amount for socioeconomic development. Through financial and non-financial contributions. We are involved with a number of specific projects aimed at improving the lives of the previously disadvantaged communities. These funds are managed and distributed by Hudaco head office on behalf of our business units. In 2019, Hudaco donated approximately R2.5 million (2018: R3.5 million) to a variety of socio-economic development initiatives.

Our Divisions

We currently have four divisions within the Powermite business unit.

- Texoprene Range of flexible cables.
- Material Handling and Electromechanical Products.
- Industrial Plugs and Sockets and Multi Pin Connectors.
- LED Light Fittings for underground and surface applications.

Flexible Cables and Accessories

Powermite has a long standing relationships with recognised international cable manufacturers and this has formed an integral pillar with in our business.

We have the expertise to assist in selecting the correct cable for your specific applications. Furthermore, we have obtained the SANS 1520 Part 1 & 2 approval on a selected range of flexible mining cables. This range includes Type 41, Type 61, Type 63, Type 66, Type 66ECC, Type 611, Type 611ECC, Type 622, Type 622ECC, Type 633 and Type 633ECC.

The additional flexible cables in our range include: H07 RNF Cable, Flat Festoon Rubber and PVC . Trackless Scoop cable. Crane Pendant. PVC Control cable with optional screen offering. Silicon spiral. Non flexible Ship and Oil Rig cables.

Our latest innovation to our mining cable range is the TPU sheathed screened mining cables with the poly urethane high abrasion and tensile pull properties and an integral reflective covering under the transparent outer sheath.

Energy Chains

At Powermite we can offer a wide range of Energy Chains for every possible application. For straight and circular operation on plants and machinery.

Our Dress pack Robotic range is currently used by ANUC , Yaskawa , ABB , Hyundai , KUKA , COMAU

Our product offering includes various types of materials. Brylon 6 with an operating temperature of between -25°C to +125 °C.

We include a Bright Zinc Plated Steel with aluminium frame and covers.

Our range includes all the various cable separators, end support brackets in BRYLON 6 and Zinc Plated.

All Energy Chains have the option of including protection covers that are snap fit.

Hazardous & Flameproof Lighting

Powermite proudly offers a comprehensive range of Azolite Hazardous & Flameproof Lighting solutions, engineered to deliver exceptional performance and safety in challenging environments. Designed to meet stringent industry standards for hazardous locations, our Azolite lighting products are specifically crafted to minimize risks associated with flammable gases, vapors, dusts, and fibers.

Our Azolite Hazardous & Flameproof Lighting solutions are built with robust materials and advanced technologies to ensure reliability and durability in demanding conditions. Whether it's offshore oil rigs, chemical plants, refineries, or other high-risk industrial settings, Azolite lighting provides superior illumination without compromising safety. Each product undergoes rigorous testing and certification to guarantee compliance with international hazardous area classifications and regulations.

With Azolite, you can illuminate hazardous areas with confidence, knowing that our lighting solutions are engineered to withstand the challenges of extreme environments while enhancing visibility and minimizing potential hazards.

Trust Powermite and Azolite for innovative lighting solutions that prioritize safety, efficiency, and performance in hazardous settings.

AZOLITE
HAZARDOUS LIGHTING SYSTEMS

SANS 6009-0/1 . RATED IP68.

SANS 60529. RATED IP66.

Additionally we have all the associated clutches and brakes alongside our renowned Yaskawa VSD drives.

Further to this, we are the agents for EKD from Germany and carry an extensive range of energy drag chain solutions and components. On several projects our team has successfully designed and manufactured customised steel and stainless steel drag chains for arduous applications. Additionally, we design and manufacture a local content motor and gearbox driven cable reeling systems for moving machines such as Ship loaders and Stackers.

- Crane festoon type C and Diamond track systems
- Distributors of the Guessmann stick controllers
- Full range of Slip ring assemblies

We have successfully designed, supplied and commissioned our solutions for the following clients:

- Richards Bay Coal Terminal
- Suldhana Bay
- Exxaro Coal
- Grootgeluk
- Escom

Powermite has developed and locally manufactured a complete range of metal and plastic industrial plugs & Socket outlets in both CEE to IEC60309 part 1 & 2 and Oval DIN format. Our range covers from 16 amp to 630 amp across all voltages from 50VAC to 500VAC.

We have recently launched our New Generation 2 plastic range of CEE IEC60309 plugs and sockets, this now completes and expands on our foundation Generation 1 plastic range.

Our well known and long standing Mennekes range remains our premium quality industrial CEE IEC60309 plug & socket range for extremely arduous applications.

- Switched & Dual interlocked with integrated circuit breaker
- Switched & Dual interlocked with integrated Earth leakage & Circuit breaker
- Switched & Dual interlocked with contactor & overload relay
- Available in 63A for Zone 2 Class I Div2 Locations
- Available 32A 63A & 125A IP 44 & IP67 in 400v & 500V
- Full range of Plugs & Couplers for above.

- Switched Socket Dual interlocked in IP44 only 400V & 500V
- Available in 25A-40A-60A-100A-250A-400A-630A
- Full range of plugs & couplers for above.
- Switched & Dual interlocked with integrated circuit breaker
- Switched & Dual interlocked
- With contactor & overload relay.
- Available in front and side mounted isolator
- Swedish Plug Tips & Socket outlets in 63A IP44

- Available in 50A-175A-250A-350A

- Available in 63A-125A-250A-400A-630A front and side operated in IP65

We offer a full range of customised solutions to your specifications.
