

**POWERMITE**

Your mobile power transfer partner

a member of the **Hudaco** group

# Our Capabilities

At Powermite we appreciate that the ultimate success of projects are influenced by your preference of partners that respectfully understand the challenging scale of your application.

Our strength lies in working closely with our partners and transferring our solutions expertise with leading experience of our product range. Furthermore, you can rely on our high quality products sourced from internationally recognised manufacturers and our continued support throughout the life of the product. Powermite has since inception enjoyed customer recognition, based on our proficiency in design and supply of a multitude of electrical power transfer projects.

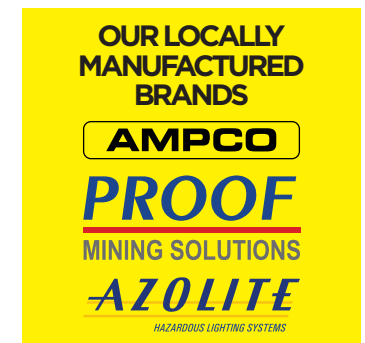

We currently employ 187 staff members across all our divisions and our operations are all Certified in Compliance to ISO Standards.

---

# Our Values

With 53 years industry experience Powermite remains the partner of choice for leading flexible cable and power transfer projects throughout Sub Sahara Africa.

Our staff are suitably competent as specialists in Texoprene flexible cables and reeling assemblies, industrial plugs & sockets, crane festoon & downshop track systems and associated control solutions.

Your trusted partner of choice

# Our History

# 1967

Established

# 2004

Member of Hudaco Group

**Powermite was established in 1967 and has proudly participated in the industrial electrical space and manufactured electrical commodities for the last 53 years.**

Our AMPCO brand started manufacturing our range of metal and plastic industrial plugs and sockets in 1974. In October 2019 AMPCO launched the new AMPCO Generation 2 Industrial Plugs & Socket range conforming to IEC60309-2. In 2004, Powermite was acquired by HUDACO Group in 1984 and became a division of a highly respected JSE listed company.

The Hudaco group went on to acquire PROOF Engineering in 2013. PROOF Engineering designs and manufactures our range of retained mining plugs and sockets.

## Our Social Responsibility

Powermite is a trading division within the Hudaco Group. As such Hudaco has a defined approach to fit both the beneficiaries and businesses. Whereas ESD forms part of the broad based black economic empowerment policy to advance economic transformation in SA. We procure from these suppliers to help them improve service delivery.

Each year the Hudaco board sets aside a specific amount for socioeconomic development. Through financial and non-financial contributions. We are involved with a number of specific projects aimed at improving the lives of the previously disadvantaged communities. These funds are managed and distributed by Hudaco head office on behalf of our business units. In 2019, Hudaco donated approximately R2.5 million (2018: R3.5 million) to a variety of socio-economic development initiatives.

# Our Divisions

**We currently have five divisions within Powermite.**

- Flexible cables and accessories
- Material Handling Electromechanical Products.
- Industrial Plugs and Sockets
- Mining Plugs and Sockets including LED Light Fittings for underground and surface applications.
- Localised Manufacturing Operation producing Powermite range of Branded Products.

## Flexible Cables and Accessories

**Powermite has a long standing relationships with reconised international cable manufacturers and this has formed an integral pillar with in our business.**

We have the expertise to assist in selecting the correct cable for your specific applications. Furthermore, we have obtained the SANS 1520 Part 1 & 2 approval on a selected range of flexible mining cables. This range includes Type 41, Type 61, Type 63, Type 66, Type 66ECC, Type 611, Type 611ECC, Type 622, Type 622ECC, Type 633 and Type 633EEC.

The additional flexible cables in our range include: H07 RNF Cable, Flat Festoon Rubber and PVC . Trackless Scoop cable. Crane Pendant. PVC Control cable with optional screen offering. Silicon spiral. Non flexible Ship and Oil Rig cables.

**Our latest innovation to our mining cable range is the TPU sheathed screened mining cables with the poly urethane high abrasion and tensile pull properties and an integral reflective covering under the transparent outer sheath.**

## Our Latest Innovation

Flexible, reflective or neon TPU sheathed screened mining cables. High abrasion and tensile pull properties.

## Specialised Cables

Flexible, reeling, flat, rubber and PVC, control & silicone cables

# Proof Engineering Mining Connectors

## Overview

Proof Engineering specialises in the design and local manufacture of innovative flameproof, explosion proof and non-flameproof plugs, sockets, adaptors and cable couplers for mining and tunnelling applications that meets international standards for hazardous and non-hazardous areas.

## Applications

- Power supply to underground machines
- Power supply to surface-to-underground machines
- Open cast mining machines
- All products are certified SANS IEC60079-0-1 & SANS 1489
- All test reports available on request

## Products

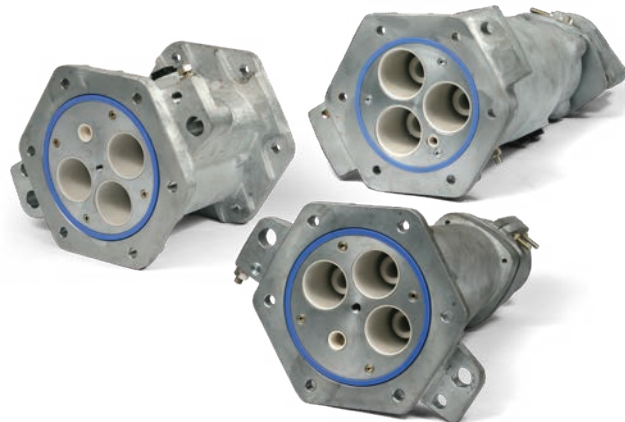

- 200A 1.1kV Restrained Plug
- 200A 1.1kV Restrained Socket
- 200A 1.1kV Plug Coupler
- 300A - 425A 1.1kV Restrained Plugs
- 300A - 425A 1.1kV restrained Sockets
- 300A - 425A 1.1kV Restrained Plugs
- 400A 12kV Half Coupler & Adaptor
- 400A 12kV Bolted Half Coupler

## Features and Benefits

- Available in Pro-Alloy anti-theft material
- Grub screw or crimp type connectors
- Individually screened contacts
- Improved Silicone insulating connecting sleeves

## After Sales Service Solutions

- Quickest and easiest coupler on the market to terminate
- In house cable terminations available on request
- Complete training on product range available on request.
- All spare parts manufactured locally and available ex-stock
- Technical back-up and support 24/7

# Hazardous & Flameproof Lighting

Azolite manufactures a range of LED light fittings for underground applications.

**AZOLITE**  
HAZARDOUS LIGHTING SYSTEMS
